We connect products with system solutions.

Cable Management by OBO®

Intelligent complete solutions for the energy and data infrastructure of tomorrow – in residential and office buildings, as well as in industrial and infrastructural projects. From complex cable support systems to underfloor and conductor routing systems through to software solutions such as OBO Construct, there will always be an OBO partner available for your projects.

Building Technology by OBO®

Energy and data cables are the lifeline of a building. OBO supplies systems for setting up this building's infrastructure. And we also supply systems to protect both building and the people who live in it and to make their lives more comfortable. With lightning and surge protection systems, a unique fire protection range and the OBO BUS system.

Professional Installation by OBO®

User-friendly, practical products to fit everyday requirements. That's what we mean by perfect solutions. Professionals all over the world work with practical installation materials such as our leading connection and fastening systems. Let your day-to-day activities benefit from our integrated approach to marketing.
